126 YEARS OLD

Surwich, Yuesday, Sept. 13, 1922.

FOR OF THE ASSESSATED PRIES. All rights of expeldication of section burnet, see also reserved.

That causes no great amount of surpries because following that memorable
campaign of a dozen years ago Governor Lake declared that he would
the national guard could desire no better

long and commendable service. With date the situation which has developed the probable renomination of the same in Jersey City where the traffic officers name its best men for the various places grumpy. It has been well said that the

it is a departure from past practices, the remainder of the traffic. been made by congress. That is as it

ditions warrant has been gaining in otherwise than grumpy that is not the creased recognition. It isn't the usual job for them. thing to do, but these are not ordinary limes. It isn't intended that he shall make over the whole tariff bill. The authority is explicit and he can make rofluctions or increases in the tariff only the Greeks meet the Turks. within certain limits, and he would natarally recognize the responsibility that Business ought to be brisk in drun would be bound to go with any such ac-

Making the tartif flexible as planned may not call for any action by the pres-ident, and again it may not serve to sheviki and Turks. changes in comomic conditions, but the importance of having such authority to act should conditions warrant is of in portance. It isn't one man tartiff makmg but the recognition by congress of possible need for regulation within a certain period and the giving of aulhority to act in its behalf, having fixed he time and the bounds within which

moh action can be taken, There bu't any more hit or miss about this flexible feature of the tariff than there is about the ordinary methods-of lariff changing.

MARING HIGHWAYS SAFER. Pretty good evidence that safety on the highways cannot be insured by the prosecution of the violators of regularegistrar of motor vehicles in Massa-chancets where thus far this season have been suspended or revoked 1088 automobile registrations and drivers' licenses. That represents action of this kind against an average of 634 a mouth or at the rate of more than 20 a day. Massachusetts in a state with nany autos and drivers but the need of instating upon the observance of safety measures in keeping with the increase in the number of such users of the highles department when the number of the kind of men needed on the United murked increase over the 2913 for the

name speriod a year ago. fact that just as llong as it its possible to go with what is sold for coal, to diaregard the rights of others withou New York has 16,000 professional beg-sure and because they take in amounts up to \$100 apiece a day they resent any interference with their operations.

making of the highways asfer will be recognized to keep within the law but who recognize that their affeity to a large degree lies in the hands of the other fellow, whose only consideration is the accomplishment of his object whatever may happen to the user of the highway who keeps within the law.

The situation is of occurse no different in Massachusetts than elsewhere. The suppension or revocation of licenses has its beneficial effects in Connecticut quite the same as it does in Massachusetts that his Melville Dunningham, whom to the users of the highways than the same as it does in Massachusetts that the recipient of the users of the highways than the same as it does in Massachusetts the same as it does in Massachusetts the same as it does in Massachusetts that the same is the profession of special attention to those who insist upon driving when intoxicated. It seems to have taken some time in the neighboring state to become aroused to the suppression of the dangerous driver but it is a safety measure that deserves overy commendation.

USE FOR THE RETIRED.

When the idea was advanced of having those smaler and ording, who is retirement would automatically come within a few months, but beyond the time in which the reduction in army officers must be made, apply for retirements the made, apply for retirements the actual date that that man on the train."

The work-end guest blushed-violently. "Well, I want to tell you about this man on the train."

The work end of visual was admitted the theorem must be made, apply for retirements would automatically come within a few months, but beyond the time in which the reduction in army officers must be made, apply for retirements the made apply for retirements the retained in the service of the and not train."

The work end of the size of the s
